WHY IS IT IMPORTANT TO BUILD BELONGING FOR INTERNATIONAL STUDENTS ON OUR CAMPUSES?

- 1** Positive social interactions with peers from the host university can encourage psychological well-being and cultural adjustment adjustment of international college students.

Julia Rivas et al., Western Kentucky University

- 2** **“Belonging feels good, improves student retention rates and supports other EDI efforts.”**

Joanna West, Univ of Luxembourg

- 3** Students are more likely to persist if they connect socially and academically at that institution
